EXPERIENCE

Software Developer, 08/2020 - Present
Bentsys, Mohali, India

Projects:

1. **Activue App (Social media & Video Streaming App)** (12/2021 - 06/2022)
   - Download Apk : https://activueservicedev.azurewebsites.net/api/BuildInfo/GetBuild?fileName=6d1a7b47-eac2-40a9-a1dc-1c0ac43cb934.apk
   - App built for Mobile (Platform- Android and Ios) and for Tablet.
   - Built using **React native v0.63.0**.
   - Used Redux for global state management.
   - Used Youtube native api for playing youtube video in Android.
   - Used Youtube iframe player for playing youtube video in Ios.
   - Made api calls using axios library.
   - Used Signalr for providing realtime updates in the App (realtime chat,etc)
   - Used Firebase messaging for implementing Push Notification.

2. **Activue Web Panel/Dashboard** (12/2020 – 05/2022)
   - Built using **Angular10.**

- Used Scss, Bootstrap for styling and media queries for making it responsive.
- Used Angular Http Client for making Api calls and did it using Angular services. Also, used services for transferring data between Components.
- Used Angular Http Interceptor for intercepting each and every Api call.
- Used Angular Guards to allow certain routes only after authentication.
- Provided feature of separate login for super admin and its managers in single panel and showed different features and data for them.
- Created development and production environment for the panel.

3. Boomn App (Social media App) (08/2021 - 11/2021)
- Download Apk : https://drive.google.com/file/d/1qSuPtlQpXEHGClq4r0e5XPoPZT5 jRKLw/view?usp=sharing
- App built for Mobile (Platform- Android)
- Built using **React native v.0.64.2**.
- Used Redux for global state management
- Used Agora's api(s) for providing live video streaming and network calling feature.
- Made api calls using axios library.
- Used react native Ui library "react-native-paper" for few U.I. components.
- Used Socket.io for providing realtime updates in the App (realtime chat, profile updates, etc)
- Used Firebase messaging for implementing Push Notification.
- Provided Social media login feature of Google, Facebook and LinkedIn login.

4. Boomn Web Panel/Dashboard (11/2021 - 12/2021)
- Built using **React v17.0.2.**
- Used Redux for global state management.
- Used Scss, Bootstrap for styling and media queries for making it responsive.
- Used Axios for making Api calls.
- Used react-router-dom for navigation.
- Created development and production environment for the panel.

5. Boomn Backend (08/2021 - 11/2021)
- Built using **Nestjs.**
- Created around 10-12 api(s).
- Implemented Socket.io on the backend.

6. User Guide App (Video Tutorial App) (09/2022 - 11/2022)
- Download Apk : https://www.dropbox.com/s/2mrkw2ws97a8tjj/User-Guide.apk?dl=0

- App built for Mobile (Platform- Android and Ios) and for Tablet And Ipad
- Built using **React native v.0.69.0**.
- Used react-native-video package for playing tutorial videos both in Android and Ios
- Customized Seekbar controls using the events provided by react-native-video package

Frontend Web Developer Trainee, 09/2019 – 03/2020
Nugen I.T. Services, Jalandhar, India

Trillo Webpage (Demo website)

Website link : https://elastic-fermat-b44af6.netlify.app/

- Used Html5 and Css3 to build it.
- Used flexbox and media queries in Css3 for responsive layout.

Nexter webpage (Demo website)

Website link : https://sleepy-shockley-045280.netlify.app/

- Used Html5 , Css3 and Scss to build it.
- Used Grids and media queries in Css3 for responsive layout.

Newsletter signup form webpage (Demo website)

Website link : https://still-fortress-99285.herokuapp.com/

- Used Html5, Css3 and Javascript to build it.

SKILLS

- Javascript
